Overview of Project

Mouva

Mouva is a combination project as it is a social media platform and it is a portfolio to add your works on it.

Mouva is a social media platform because you can connect to people around the whole world and visit their accounts and watch their work, also you can share your works like them you can use Mouva to save your images on Mouva and enjoy the memories.

You also can use it as a portfolio to add your works, if you are a photographer you can add your picture on Mouva, or if you are a graphic designer you can add your works on Mouva , and people can visit your account and enjoy your works and images.

Mouva helps you to increase your popularity and fame and make more people know about you and your works, as it Helps freelancers get more clients as it a portfolio to attract followers and increase client network.

You open the Mouva and open your account if you are a former user or you can register in Mouva If you don't have an account and add your works now!

The application is built using HTML, CSS, JavaScript and PHP languages and we use Bootstrap Framework and all data in the system is managed using MySQL and XAMPP used as a virtual server.

Web Pages

Database :

Data base Consist of Two Main Tables :

1- User Table :

User Table Consist of 9 Main columns :

1. UID :

By creating unique identifiers for users, it is possible to retrieve user information from the database, as well as connect pages with one another by passing the id to the next page and retrieving the information again from the database.

2. PROFILE :

Used to add the Profile Picture.

3. COVER :

Used to add the Cover Picture.

4. CAPTION :

Used to add the Bio.

5. FNAME :

Used to add the First Name.

6. LNAME :

Used to add the Last Name.

7. USERNAME :

Used to add the Username and in searching about user.

8. EMAIL :

Used to add the profile Picture.

9. PASSWORD :

Used to add the Password.

Home Page:

All pages have this header:

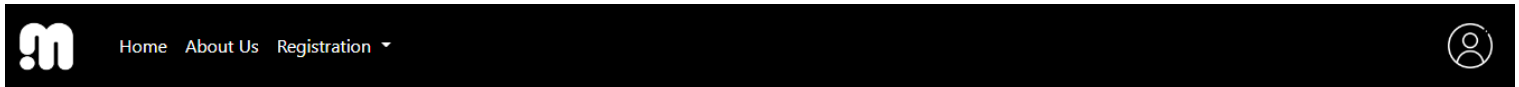

Figure 2.1(Header before sign process)

The header consists of :

- 1- Icon of the brand.
- 2- The unordered list consists of :
 - a. Home : takes you to the Home page
 - b. About Us : takes you to the About Us page
 - c. Registration : dropdown button takes you to the Login page or the Registration page

Figure 2.2(Registration Dropdown Button)

-
-
-
- d. User Icon : dropdown button takes you to the Login page or Registration page if the user is not signed in, or takes you to the Profile page or Edit page or to Log out from the account if the user is already signed in.

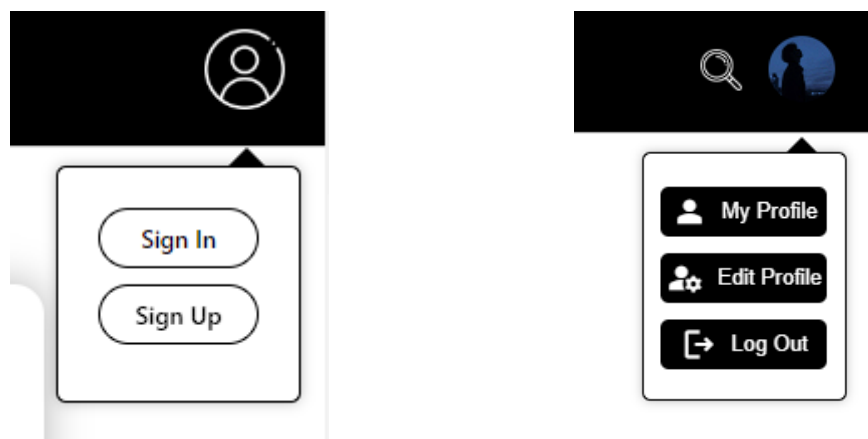

Figure 2.3(User Dropdown Button)

The body is a start screen with an overview of the website.

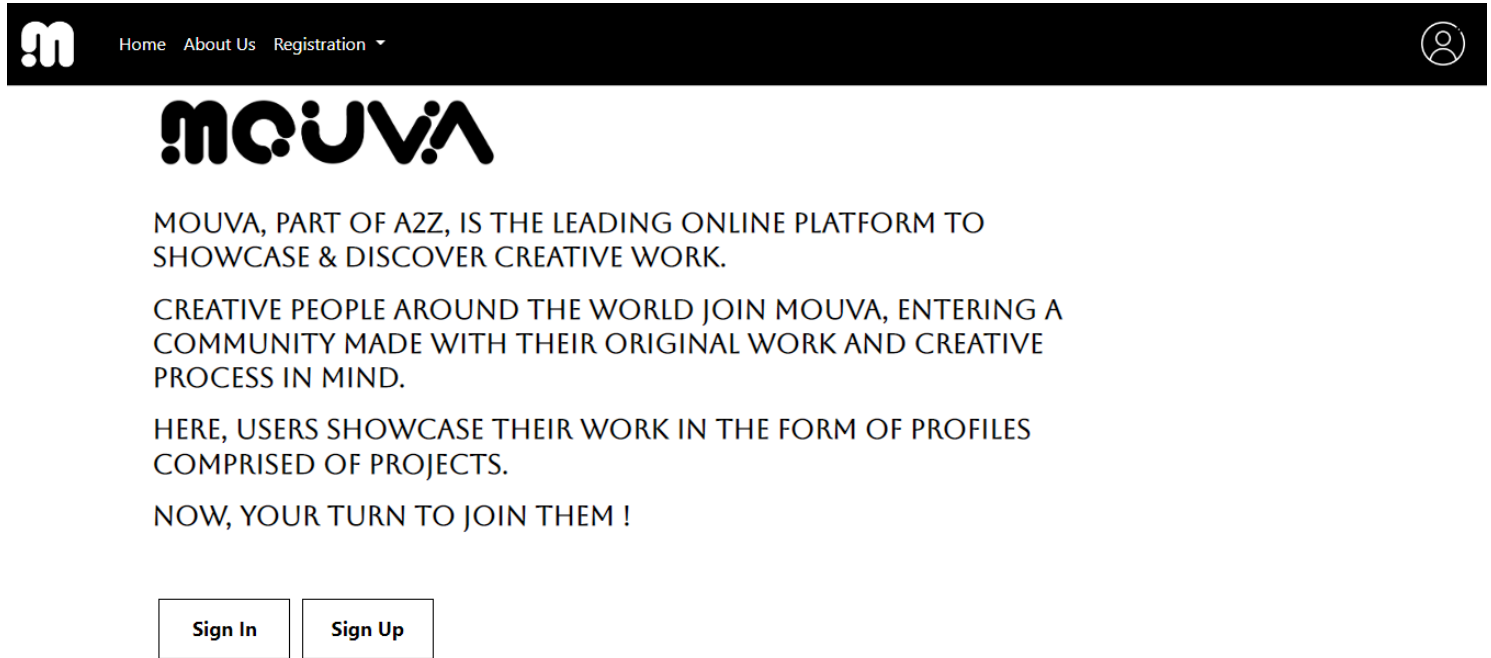

Figure 2.4(start screen)

All pages have this Footer:

- 1- The unordered list consists of :
 - a. Social media Icons
 - b. Team name and date created

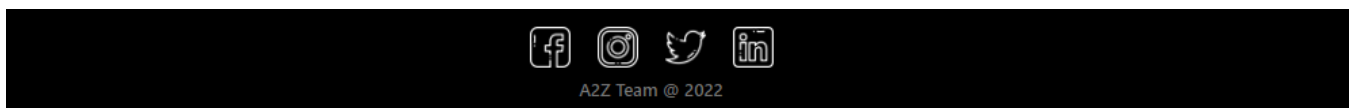

Figure 2.5(Footer)

Sign In Page:

Sign in page contains a login form, which consists of two input boxes for email and password, and a label if the user forgets the password or to go to the sign up page if he isn't a member, and submit button.

The image shows a 'SIGN IN' form centered on a white background with a subtle shadow. The form is contained within a white rounded rectangle. At the top, the text 'SIGN IN' is displayed in a large, bold, blue sans-serif font. Below this, there are two rectangular input fields. The first field is labeled 'Email' in a light blue font. The second field is labeled 'Password' in a light blue font. Below the password field, there are two lines of text: 'Forget Password?' and 'Not a member? Sign Up', both in a light blue font. At the bottom of the form is a rectangular button with the text 'Log In' in a bold, black sans-serif font.

Figure 3.1(Sign In Form)

Sign Up Page:

The sign up page contains a registration form, which consists of 5 input boxes for the first name, last name, username, email and password, and label if the user already has an account which moves him to the sign in page, and submit button.
